

HAL OFFSHORE LIMITED

INTEGRATED MANAGEMENT SYSTEM (IMS) POLICY

HAL OFFSHORE LIMITED is engaged in Engineering, Procurement, Construction, Commissioning and Operation & Maintenance for Oil & Gas EPC (Engineering Procurement and Construction) and LSTK (Lump-Sum turnkey) projects. We are committed to conducting our business with integrity, responsibility and respect for people, the environment and the communities in which we operate.

We are committed to achieving customer satisfaction through high-quality professional project management, engineering, procurement, construction, installation, commissioning and timely completion of projects, while protecting the environment and providing safe and healthy working conditions.

To achieve this, HAL OFFSHORE LIMITED shall:

- Meet customer requirements and comply with all applicable compliance obligations and other applicable requirements relating to quality, environmental protection and occupational health & safety.
- Deliver quality projects on time through effective engineering, project management, procurement, construction, installation, commissioning, quality assurance and quality control processes.
- Eliminate hazards and reduce OH&S risks, environmental aspects, risks and opportunities, and implement appropriate controls with emphasis on prevention, risk avoidance and continual improvement.
- Provide safe and healthy working conditions, prevent work-related injury and ill health, and strive for incident/accident-free project execution.
- Provide appropriate competence, training, resources, equipment, facilities and information necessary to achieve our quality, environmental and OH&S objectives.
- Protection of the environment, including Prevent pollution, minimize environmental impacts, reduce waste, conserve energy and natural resources, prevent spills, protect biodiversity throughout our operations and other specific commitment to enhance environmental performance, relevant to the context of Hal Offshore Limited.
- Ensure effective control of contractors, subcontractors, suppliers and business partners, recognizing our shared responsibility for quality, safety and environmental performance.
- Encourage consultation, participation and involvement of employees in matters affecting quality, environmental performance and occupational health & safety.
- Establish measurable IMS objectives and targets, monitor performance, investigate incidents and non-conformities, and implement corrective actions.
- Continually improve the effectiveness of the Integrated Management System and our overall Quality, Environmental and Occupational Health & Safety performance.
- Top Management shall provide the leadership, resources and support necessary for implementation and continual improvement of this Integrated Management System.
